EXPERIENCE

Cybersecurity & Networking Industrial Training EY India

📅 July 2023 - Present

- Worked independently and as part of a team to complete projects.
- Learnt to Apply knowledge of cybersecurity principles to identify and mitigate security risks.
- Documented and learnt proficiency in a variety of cybersecurity and networking technologies.

IBM SkillBuild Internship

IBM & AICTE

📅 July 2023 - Present

📍 Remote

- Learnt and built projects on latest trends in web development by reading industry blogs, attending conferences, and courses.
- Attended Mentorship sessions and Workshops for building production-ready scalable Web Applications.

Oasis Infobyte

- Learnt and submitted projects on built complex UI Web Apps and React best Practices

Code Clause

- Built Web apps with React best Practices and attended sessions on UI Development.

LetsGrowMore

- Built Serverless applications using Tailwind CSS and Next.js 13 with React Server Components and other integrations.

EDUCATION

B.Tech in Computer Science and Engineering

📅 CGPA: 7.8

+2 Science

📅 Percentage: 65.5%

Class 10 (ICSE)

📅 Percentage: 85.17%

Siksha 'O' Anusandhan University

📅 graduating 2024

📍 Bhubaneswar, India

Stewart Science College

📅 passed 2020

📍 Cuttack, India

New Stewart School

📅 passed 2018

📍 Cuttack, India

PROJECTS

e-Commerce Application | React NextJS 13, XState, Firebase, Clerk, React Hooks

🐙 Github Code

- Built an e-commerce application that allows users to buy, sell and browse products online.
- The application provides users with a platform to add products to their cart, checkout, and payments.
- Built using React, NextJS, Clerk and Typescript and XState for state management.

Portfolio Website | NextJS 13, Framer Motion, React, GSAP, Typescript, Tailwind CSS

🐙 Github Code

- Built a beautiful Animated Portfolio Website.
- The Website uses complex chain interactions built using Framer Motion and GSAP.
- Purpose was to learn building complex Interactive UIs and better SEO.

EcoTours - Website | HTML, CSS, Saas, Netlify, GSAP, Javascript

🐙 Github Code

- Built a Tourism Website with Saas styling and GSAP.
- Acquired a good understanding over pseudo-elements in CSS with improved UI.

Leeds Tracker - Chrome Extension | Javascript, HTML, CSS, APIs

🐙 Github Code

- Designed and Developed a Chrome Extension which keeps record of important web links.
- Obtained knowledge over Local Storage features provided by JS in a browser.

SKILLS

Languages & Skills: Typescript, Javascript, Python, SQL, C(Basics), Java(Basics), C++(Basics), Data Structures, Algorithms, HTML, CSS

Frameworks & Tools: React 18, NextJS 13, Firebase, mySQL, Clerk, NextAuth, XState, Figma, UI Design

COURSEWORKS

Certifications: React, SQL, Python, Javascript, React Hooks, Cybersecurity, Frontend Career Path, Github, Introductory Data Science

College Curriculum: Computer Networks, OOPs, Databases (DBMS), OS, Python, Data Science Introduction, Java & C (Intro), Algorithms

EXTRACURRICULARS

- Won the 1st prize for Maximum Contributions in Codex Hackodex 2.0.
- Qualified the Ideathon and Prototype statges of the Hackthon by ekstep Foundation.
- Participated in Hackathons on Hackerrank and Codex.
- Participated Web Development Seminar at C.V Raman Global University.
- Attended CS50 Webinar organized by Harvard University.
- Donated Blood at Blood Donation Camp by Rotary Club.
